ED 4010 Student Teaching and Professional Seminar........................12
Total ....................................................................12

A total of 124 credits are required for the Social Studies Concentration.

**Intern Certification**
The Education Department, through the Office of Continuing Education, offers a program in Intern Certification (Teacher Certification Internship Program, TCIP) for candidates who already possess a bachelor's degree in the following content areas - Agriculture, Biology, Business, Chemistry, English, General Science, Mathematics or Social Studies. Candidates complete 18 credit hours in education courses and obtain employment as a teacher intern in a Pennsylvania school district.

To qualify for admission, students must possess a bachelor's degree in a content area, a minimum 3.0 cumulative GPA, and six college credits in both English and Mathematics. Successful completion of Praxis I and II exams is also recommended. Applicants with a minimum 2.8 GPA will be admitted to the program provisionally until they have completed 9 credit hours with a 3.0 GPA or better.

**TCIP Recommended Course Sequence**
The six required courses in the program are offered in cohort groupings, and run on an accelerated six week schedule. Courses typically occur on Tuesday and Thursday evenings or on Saturdays. The courses are offered in the following sequence:
- ED 1010 American Education
- ED 2230 Educational Psychology
- ED 3230 Multicultural Education
- ED 2210 Reading in Secondary Schools
- ED 3120 Tests and Measurements
- ED 3010 Methods and Materials.

To achieve the optimum experience from the program, intern candidates are required to take the courses in this succession.

After successfully completing all Praxis exams, finishing 6 credits of education courses with a cumulative G.P.A. of 3.0 or higher, and obtaining the background clearances required by the Commonwealth of Pennsylvania, (Acts 34, 114 and 151), students may apply for the Intern Certificate*. Candidates then secure their own full-time internship at a public, parochial, or private secondary school for a minimum of 12 weeks. Teaching positions should be found within a 25 mile radius of the DVC campus. Students will be recommended for Instructional I (permanent) Certification when required coursework and the intern observation period have been completed according to program standards.

* The Intern Certificate is valid for only three years from the date of issuance.

- Michael W. Stamps

**Majors within the English Degree**
Students in English may choose a major in English Literature or in Media and Communication. Students should discuss their goals and interests with their advisor in order to design the curriculum best suited for them.

**The English Literature Major**
Students enrolled in the English Literature major have the opportunity to study literary works from a variety of genres, periods and cultures. In addition to a broad knowledge of literature, they will gain an understanding of literary history, an awareness of how literary works relate to broader cultural issues, and are exposed to various methods of literary criticism and interpretation.

The English Literature major at Delaware Valley College will prepare you to enter the workforce with confidence, expertise and invaluable practical experience. Whether you’re preparing for a career as a high school teacher, a college professor, a journalist, a lawyer, or a business person, our courses will provide you with the skills needed to succeed. Careful reading, clear thinking, and effective writing are needed in all areas of business and professional life. Good communication skills and the ability to critically analyze information can make the difference between a job and a growing career.
Students graduating from DVC with a degree in English Literature have pursued careers in law, teaching, marketing, technical writing, journalism, and editing. In addition, Literature majors may earn Teacher Certification in English at the secondary level (grades 7 through 12) by combining their literary study with a set of courses offered by the Education Department.

The number of credits required for graduation with a degree in English as an English Literature major is 127, which includes 4 credits for completion of the Employment Program.

The Media and Communication Major  
The Media and Communication major has been  
designed to reflect the enormous change that has  
occurred in the communication industry. Advances in  
digital communication and the World Wide Web have  
created a wide range of opportunities for students  
interested in working as multi-media communicators.  
The Media and Communication program has been  
tailored to provide students with a curriculum that  
includes digital video production, digital photography,  
web design and writing across the converging mediums of print, web and broadcast. This major is  
for students that are creative, hands on learners with  
an artistic spirit and an entrepreneurial spark. The  
range of skills that students will learn in the Media  
and Communication program will give them a significant edge when they enter the digital workplace. Our mission is to prepare students for jobs as news writers, reporters and photographers as well as corporate communicators, educators, entrepreneurs and highly-trained candidates for graduate education.  
The total number of credits required for graduation with a degree in English as a major in Media and Communication is 125, which includes 4 credits for completion of the Employment Program.

**ANIMAL SCIENCE**

**EQUINE STUDIES**

Faculty:
Angelo Telatin, Director of Equine Studies  
Brennan DePietro  
Fredrick R. Hofsaess  
Cory Herald Kieschnick  
Larry D. Morris  
Marta Piotrow  
Pamela J. Reed  
Susan Turcott White

The curriculum in this program is designed to provide students with great breadth and depth in all aspects of Equine Studies. As is true of all the College’s programs, this degree features “learning by doing.” This practical educational strategy is designed to prepare graduates for challenging careers in the equine industry, such as the manufacturing, distribution and sale of supplies, feed, and healthcare products; stable management; retail management; riding instruction; horse training; veterinary practice management; and equine nutrition. Majors in Equibusiness and Equine Training are available, as well as the Associate of Science degree in Equine Science.

The College maintains equine facilities on campus including a breeding facility and a riding and training facility. The Equestrian Center is an Official Approved Riding Establishment and Testing Center of the British Horse Society. Located on campus, it consists of an indoor arena (84' x 280') along with 48 stalls, tack and harness rooms, wash stalls, a carriage room, and student lockers. A 140' x 185’ outdoor jumping ring, Hitchcock pen, and Round Pen complete the facility. Surrounding the Equestrian Center are acres of pasture, farmland, and cross-country trails. The Breeding Facility consists of over 20 stalls, a breeding shed, a laboratory, and turn-out sheds with associated pastures. The College stands Standardbred stallions and a broodmare herd. Equine students have the opportunity to assist with foaling and breeding procedures.

All Equine students are required to work at the Equestrian Center and Breeding Facility as part of their course work. Weekly and weekend assignments are allocated at the beginning of each semester. Reflective of the “hands-on” nature of the Equine Studies program, several academic courses require
