Operating Local Governments as Energy Costs Rise

A community forum for understanding energy and cost-saving strategies

Wednesday, January 23, 2008
Delaware Valley College
700 E. Butler Avenue
Doylestown, PA 18901
5:30 P.M. - 7:30P.M.

Join your fellow community leaders in a presentation by LOGICS (Local Governments Implementing Conservation and Sustainability).

Learn how to prepare your community for the upcoming expiration of electricity rate caps while ensuring taxpayers of your dollar-saving efforts. The seminar will address the issues of operating local governments as energy costs rise, purchasing to beat inflation, green buildings options, including construction and operations that pay back.
