\*\* CE students are required to have a letter from their employer on file as to being successfully, gainfully employed for one year or more.

## CRIMINAL JUSTICE ADMINISTRATION

Faculty:

David C. Whelan, Chairperson

Donna S. Kochis

The curriculum in Criminal Justice Administration is an interdisciplinary career program offering socio-psychological, business management, and administration preparation for students planning to enter the field of criminal justice in the American legal system. The program offers professional preparation through the study of criminal justice, sociology, psychology, business management, liberal arts and the science of investigation.

The curriculum prepares the student through specialized courses with the necessary knowledge of the subject field and the professional skills and state-of-the-art techniques required for a successful career. The curriculum integrates theory and practice for the development of the individual along with sound philosophical insights for understanding society and the ideals of the American system of justice.

Additionally, the curriculum offers to practicing criminal justice personnel opportunities for continued professional growth to assist in the educational growth and development of the communities served by the College. The DVC program fosters the advancement of knowledge and professionalism in the American legal system.

The curriculum helps to prepare the individual for management careers in law enforcement, corrections, probation and parole, security, and other aspects of the judicial system. It also serves as a preparation for students considering graduate or law school.

The total number of credits required for graduation with a degree in Criminal Justice Administration is 120 plus 4 credits earned for successful completion of the Employment Program.

## RECOMMENDED COURSE SEQUENCE

### FRESHMAN YEAR

#### First Semester

Course No.	Course Title	Credits
EN 1101	English I or	
EN 1111	Advanced English I.....3	3
LA 2012	Intro to Sociology .....3	3
MP 1102	College Algebra or	
MP 1203	Elementary Functions or

<b>Total .....</b>		<b>15</b>

**DAIRY SCIENCE**

Faculty:

Larry D. Morris, Chairperson  
John R. Plummer  
Fredrick R. Hofsaess  
Pamela J. Reed  
Rodney Gilbert

The curriculum in Dairy Science emphasizes the basic sciences, economics, and general education, as well as courses in professional dairy science. As a result, the students are prepared to enter a wide variety of occupations directly and indirectly related to the field of specialization.

With a 95% rate of placing graduates within six months of graduation, Dairy Science graduates have a variety of employment opportunities. Opportunities for graduates in dairy science are found principally in six occupational categories: sales and service, production, teaching, veterinary medicine, research and agribusiness. The drug and feed industries are particularly interested in dairy science graduates for sales and administrative positions. Service opportunities are available in state and federal civil services, artificial insemination, state extension services, dairy plant and farm inspection, and cooperatives offering supplies and services to the dairyman.

A number of graduates enter productive farming as dairy herd managers, farm managers, and farm owners. Teaching at the secondary school level in the sciences has become an increasingly popular field for graduates in dairy science. In recent years, also, graduate work leading to industrial research and college teaching positions has been attracting a number of graduates.

Students interested in attending veterinary school can meet the requirements for veterinary programs offered in the United States through the Dairy Science program. Veterinary schools have different admission requirements; thus, students should choose their elective credits carefully to meet Veterinary School requirements.
