

Student Self-Service & Student Planning Guide

for Faculty and Administrators

Student Planning is a system within my.delval.edu which permits you to review graduation requirements and plan courses for your advisees. It is also the system that is used by students to register for classes.

Used in conjunction with regular advisor meetings it is an important tool to ensure a timely graduation. We encourage students to view their progress every semester and note any discrepancy to their advisor and to the registrar's office.

Accessing Student Planning

- 1) Use Internet Explorer
- 2) Log into my.delval.edu
- 3) On the right hand side under "Campus Applications" click "Student Self-Service"

- 4) In order to access Student Planning you must agree to the Student Promissory Note each and every time. This is there for the students but at this time it does not distinguish between student and advisor. Click on "Enter Student Planning".
- 5) When you enter student planning you'll want to immediately click on the "Advising" link from the left hand menu or from the center of the screen. From here you should have the ability to look up any student at the college as well as view your assigned advisees in the list below. Go ahead and select one of your students.

- 6) Once the page loads take a look at the row of small tabs under the student's name. You should have loaded into the "Course Plan" tab. Here you can see the courses the student is taking in the current term in either a list or weekly calendar format. Registered courses are in Green. Planned courses are in Yellow. Courses that are Full or Conflicting will be Red or have a red boarder.

You can also view future "planned" terms. Here you can "approve" or "deny" the courses your advisees have planned using the list view. They can then see which courses you have approved or denied and remake their schedule. You can also add courses to their plan using the Course

Catalog if you wish to place suggestions on the student's schedule. These courses will show up as "planned".

Please be aware that denying a course will NOT prevent the student from registering for it. However, you can save a record of your advising by selecting "Review Complete" and then archiving the student's course plan. You and the student can then access this plan at any point in the future to see what courses were suggested at your advising meeting.

 The review has been completed. ✕

- 7) The "Progress" tab displays the student's Program Evaluation and should be used to chart their progress toward degree completion. **Please do not use check sheets!** If you see an error on the Program Evaluation please send it to your department chair and have them contact the registrar's office. We will work with them to correct it.
- 8) The top section of "Progress" displays important information about the student's degree progress, planned & registered credits, GPA information and current major.

Total Credits (68 of 127)
 35 33 127

Total Credits from this School (68 of 48)
 35 33 48

There are some important items to note in this section:

- View a New Program: Allows you to see what requirements a student would have to take if they switched majors. **Please note that any substitutions will not display using this tool.**
- Load Sample Course Plan: This feature is currently not implemented yet. Please refer to the college catalog and the First Semester Course Sequence Guide to select courses.

9) The remainder of “My Progress” displays the requirements students need to complete in order to graduate. Displayed first are the Core requirements followed by Major Coursework.

a. Completed and in-progress coursework is marked in green

In-Progress	IT-1011	Info Tech Concepts	2016/FL	1.5
In-Progress	IT-1012	Computer App	2016/FL	1.5

b. If they have completed a required section other courses will be marked in blue.

2. Complete 1 course. Choose from the courses MP-3231, MP-3250. ✔ 1 of 1 Courses Completed.

Status	Course	
Completed	MP-3231	Stats for Science
Fulfilled	MP-3250	Biostatistics

c. If they have planned a section it will appear in yellow and unmet requirements will appear in red. If they have planned a section you will see “Fully Planned” in yellow above it.

Status	Course	Grade	Term	Credits
Planned	BY-3208	Vert Embryol	2017/SP	4
Not Started	BY-3229	Immunol		

d. To plan courses for a student just click on the course subject and number. You will be taken to the course catalog where you can add the appropriate section to their plan.

Status	Course

- a. **Please note:** The Advising sub-tab is still a work in progress. Notes left for your student there can only be viewed by your advisor when they log into the system. For this reason Email is still the preferred method of communication.

- 13) **Course Catalog** tab. On this tab you can search for any course that DelVal offers and add it to current and future terms. You can use this to communicate to students what courses you think they should take in upcoming semesters. We encourage students to plan out all of their coursework as early as possible.
- 14) **Test Summary** tab. Here you can review all of the test scores DelVal has on file for the student. These can be useful when making decisions about which course students should register.
